ABOUT ME

Final-year Electronics Engineering student with strong skills in circuits, embedded systems, and IoT-based hardware-software integration. Passionate about solving real-world problems through electronics and aiming to grow as an innovative engineer.

EDUCATION

B-tech in Electronics & Telecommunication Engineering

Dr.Babasaheb Ambedkar Technological University,Lonere

Higher Secondary Certificate (HSC)

Chh Shahu jr. Science collage,Shendre(Year - 2022)

Secondary School Certificate (SSC)

Prince English Medium School,Nagthane (Year - 2020)

WORK EXPERIENCE

Aptron Tech Pvt.Ltd MIDC,Satara

- Completed a 1-month PCB Designing internship at Aptron Technology, Satara, gaining practical experience in offline PCB design, schematic creation, and circuit implementation

Kodcy Online internship

- Completed a 30-day online internship in Electric Vehicle Technology, during which I learned the basic concepts and working of electric vehicles.

ADDITIONAL INFORMATION

- Strength: Leadership Quality, Teamwork & Management

SKILLS

VHDL Programming
C,C++

MATLAB
Fundamentals

Python

JAVA
Embedded C

PROJECTS

Bidirectional Visitor Counter

- It is capable of accurately tracking entries and exits in real-time. Implemented sensor-based detection to maintain precise visitor count for efficient monitoring and reporting.

Wifi Based Smart Irrigation System for Agriculture Use

- Developed a WiFi-based Smart Irrigation System for agriculture, enabling automated water management based on soil moisture levels. Integrated IoT sensors and real-time monitoring to optimize water usage and improve crop yield.

Kidney Stone Risk Prediction using Machine Learning on Raspberry Pi

- Implemented a Kidney Stone Risk Prediction system using Machine Learning on Raspberry Pi, enabling early detection based on patient data. Integrated predictive models for real-time analysis to assist in preventive healthcare.

LANGUAGES

Marathi ,Hindi ,English

AWARDS/ACTIVITIES

- Took part in the Rotarex State-Level Project Competition, presenting an innovative technical project. Additionally, participated in a Poster Presentation at a Technical Event in 2023, showcasing technical understanding and communication skills.
